

Please complete the following form when submitting an idea for a future ELSO guideline. ELSO promotes international, diverse and multidisciplinary collaboration amongst authors and centers. When submitting an idea for a future ELSO guideline, please recommend authors from multiple countries and with diverse backgrounds. Authors may include subject matter experts with clinical or research experience or novice providers passionate about ECMO.

Submission forms will be reviewed by the ELSO guidelines subcommittee monthly, discussed with the ELSO executive board, and revisions or clarification may be asked of the submitting author. Final approval to the authors will be sent via email by one of the ELSO guidelines subcommittee members.

ELSO asks that authors submit a draft of the new guideline within 6 months of board approval to begin work on the guideline. This allows for revisions, final board approval and publication within a 12 month timeframe to ensure guidelines are up to date.

ELSO New Guideline Proposal
(max 500 words)

Date submitted:

ELSO guideline topic:

Joint effort with another organization? (i.e: SCCM) *This requires special approval and may take longer for approval by ELSO board*
